PETITION FOR SUSPENSION OF RULES UNDER 37 C.F.R. 1.183

Sir/Madam:

Petitioner hereby requests a waiver of certain requirements under 37 C.F.R. 1.48. Under the provisions of Rule 48 statements are required from each person being added as an inventor that the error in inventorship occurred without deceptive intention on his part. Additionally, oaths or declarations (37 C.F.R. 1.63) by the actual inventors are also required.

The undersigned has made significant efforts to obtain the signatures of Jawahar M. Ali and David J. Battles. These efforts are documented in the concurrently filed Petition Under 37 CFR 1.47. However, I have been unable to obtain their signatures. It is therefore respectfully requested that the requirements noted above under Rule 48 be waived.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Attached hereto is the Petition fee set forth in 37 CFR 1.17(f).

Action: TO CORRECT A CONTINUATION IN PART PATENT
APPLICATION TO REFLECT FURTHER INVENTORS

Dear Jawahar,

Attached to this letter are several documents pertaining to the above identified continuation in part (CIP) patent application entitled "COMPUTER GUIDED ABLATION OF TISSUE USING INTEGRATED ABLATIVE/TEMPERATURE SENSING DEVICES" which was filed on 11/3/2003. This CIP case was filed listing only Sanford D. Damasco and Thach Duong as the co-inventors. However, we now believe that the inventorship was in error and desire to add Jawahar M. Ali, David J. Battles, Paul W. Mikus and Jay J. Eum as co-inventors on this application. Your assistance is requested in correcting the inventorship relative to this case.

Please execute the attached papers where indicated:

1. Declaration
2. Power of Attorney
3. Assignment
4. Rule 48 Declaration

We have also attached copies of the following documents for your reference:

1. Continuation in part (CIP) patent application (Ser. No. 10/700,326) as filed on 11/3/2003 entitled "COMPUTER GUIDED ABLATION OF TISSUE USING INTEGRATED ABLATIVE/TEMPERATURE SENSING DEVICES."
2. Amendment dated 4/30/2007.
3. Information Disclosure Statement.
4. Patent No. 6,643,535 entitled "SYSTEM FOR PROVIDING COMPUTER GUIDED ABLATION OF TISSUE."

Application No. 10/700,326

As further background, this continuation in part application stems from the 6,643,535 (a.k.a. Autofreeze®) issued patent (attached). The present CIP patent application claims the use of an integrated ablative/temperature sensing device as part of the Autofreeze® feedback system. This is described in detail in the CIP patent application. The documents for which we are requesting your signature will provide the basis for adding Jawahar M. Ali, David J. Battles, Paul W. Mikus and Jay J. Eum as co-inventors to this CIP.

As a reminder, the patent statutes impose a duty to disclose, to the Patent Office, information which is material to the examination of the Application. Such information is material when there is a substantial likelihood that a reasonable examiner would consider it important in deciding whether to allow the Application to issue as a patent. Please let us know if there are any patents or publications, other than those disclosed in the enclosed Information Disclosure Statement, of any type, that might be considered to be material, and that we should therefore disclose to the Patent Office. Please note that the duty of disclosure set forth in the patent statutes is a continuing obligation, which remains even after the Application has been filed. Thus, please contact us if material information comes to your attention during the pendency of the case.

Thank you in advance for your cooperation. We note that time is of the essence relative to your signing of this paperwork because the CIP has been allowed and we have deferred issuance of the patent application to clear up these issues of inventorship. We therefore request your returning the signed paperwork within two (2) weeks of your receipt of these documents. Please let us know if you have any questions whatsoever.

Very truly yours,

Lawrence N. Ginsberg

Action: TO CORRECT A CONTINUATION IN PART PATENT
APPLICATION TO REFLECT FURTHER INVENTORS

Dear Jawahar,

Attached to this letter are several documents pertaining to the above identified continuation in part (CIP) patent application entitled "COMPUTER GUIDED ABLATION OF TISSUE USING INTEGRATED ABLATIVE/TEMPERATURE SENSING DEVICES" which was filed on 11/3/2003. This CIP case was filed listing only Sanford D. Damasco and Thach Duong as the co-inventors. However, we now believe that the inventorship was in error and desire to add Jawahar M. Ali, David J. Battles, Paul W. Mikus and Jay J. Eum as co-inventors on this application. Your assistance is requested in correcting the inventorship relative to this case.

Please execute the attached papers where indicated:

1. Declaration
2. Power of Attorney
3. Assignment
4. Rule 48 Declaration

We have also attached copies of the following documents for your reference:

1. Continuation in part (CIP) patent application (Ser. No. 10/700,326) as filed on 11/3/2003 entitled "COMPUTER GUIDED ABLATION OF TISSUE USING INTEGRATED ABLATIVE/TEMPERATURE SENSING DEVICES."
2. Amendment dated 4/30/2007.
3. Information Disclosure Statement.
4. Patent No. 6,643,535 entitled "SYSTEM FOR PROVIDING COMPUTER GUIDED ABLATION OF TISSUE."

Our Reference No. ENDO108-C1-CP2-CP
Application No. 10/700,326

As further background, this continuation in part application stems from the 6,643,535 (a.k.a. Autofreeze®) issued patent (attached). The present CIP patent application claims the use of an integrated ablative/temperature sensing device as part of the Autofreeze® feedback system. This is described in detail in the CIP patent application. The documents for which we are requesting your signature will provide the basis for adding Jawahar M. Ali, David J. Battles, Paul W. Mikus and Jay J. Eum as co-inventors to this CIP.

As a reminder, the patent statutes impose a duty to disclose, to the Patent Office, information which is material to the examination of the Application. Such information is material when there is a substantial likelihood that a reasonable examiner would consider it important in deciding whether to allow the Application to issue as a patent. Please let us know if there are any patents or publications, other than those disclosed in the enclosed Information Disclosure Statement, of any type, that might be considered to be material, and that we should therefore disclose to the Patent Office. Please note that the duty of disclosure set forth in the patent statutes is a continuing obligation, which remains even after the Application has been filed. Thus, please contact us if material information comes to your attention during the pendency of the case.

Thank you in advance for your cooperation. We note that time is of the essence relative to your signing of this paperwork because the CIP has been allowed and we have deferred issuance of the patent application to clear up these issues of inventorship. We therefore request your returning the signed paperwork within two (2) weeks of your receipt of these documents. Please let us know if you have any questions whatsoever.

Very truly yours,

Lawrence N. Ginsberg

Action: TO CORRECT A CONTINUATION IN PART PATENT
APPLICATION TO REFLECT FURTHER INVENTORS

Dear Dave,

Attached to this letter are several documents pertaining to the above identified continuation in part (CIP) patent application entitled "COMPUTER GUIDED ABLATION OF TISSUE USING INTEGRATED ABLATIVE/TEMPERATURE SENSING DEVICES" which was filed on 11/3/2003. This CIP case was filed listing only Sanford D. Damasco and Thach Duong as the co-inventors. However, we now believe that the inventorship was in error and desire to add Jawahar M. Ali, David J. Battles, Paul W. Mikus and Jay J. Eum as co-inventors on this application. Your assistance is requested in correcting the inventorship relative to this case.

Please execute the attached papers where indicated:

1. Declaration
2. Power of Attorney
3. Assignment
4. Rule 48 Declaration

We have also attached copies of the following documents for your reference:

1. Continuation in part (CIP) patent application (Ser. No. 10/700,326) as filed on 11/3/2003 entitled "COMPUTER GUIDED ABLATION OF TISSUE USING INTEGRATED ABLATIVE/TEMPERATURE SENSING DEVICES."
2. Amendment dated 4/30/2007.
3. Information Disclosure Statement.
4. Patent No. 6,643,535 entitled "SYSTEM FOR PROVIDING COMPUTER GUIDED ABLATION OF TISSUE."

Application No. 10/700,326

As further background, this continuation in part application stems from the 6,643,535 (a.k.a. Autofreeze®) issued patent (attached). The present CIP patent application claims the use of an integrated ablative/temperature sensing device as part of the Autofreeze® feedback system. This is described in detail in the CIP patent application. The documents for which we are requesting your signature will provide the basis for adding Jawahar M. Ali, David J. Battles, Paul W. Mikus and Jay J. Eum as co-inventors to this CIP.

As a reminder, the patent statutes impose a duty to disclose, to the Patent Office, information which is material to the examination of the Application. Such information is material when there is a substantial likelihood that a reasonable examiner would consider it important in deciding whether to allow the Application to issue as a patent. Please let us know if there are any patents or publications, other than those disclosed in the enclosed Information Disclosure Statement, of any type, that might be considered to be material, and that we should therefore disclose to the Patent Office. Please note that the duty of disclosure set forth in the patent statutes is a continuing obligation, which remains even after the Application has been filed. Thus, please contact us if material information comes to your attention during the pendency of the case.

Thank you in advance for your cooperation. We note that time is of the essence relative to your signing of this paperwork because the CIP has been allowed and we have deferred issuance of the patent application to clear up these issues of inventorship. We therefore request your returning the signed paperwork within two (2) weeks of your receipt of these documents. Please let us know if you have any questions whatsoever.

Very truly yours,

Lawrence N. Ginsberg
